Hello Ben,

We create WA's based on workload need, and currently we have just one. In general we have one WA per year, though it's possible we will have zero once the current effort is complete. It supports the Dewey-Burdock UIC project. The option period under the Cadmus contract (with HQ) continues for a period of one-year, from July 1 – June 30. After the one-year period, another option period begins and we obtain a new work assignment number.

Hi Bruce: Ben's question is regarding HQ's contract supporting Dewey Burdock permitting. Can you respond or should I ask Valois?

Thanks,

Douglas

**Subject:** Cadmus WA's

Hi Douglas,

How often does R8 create a new Work Assignment under the Cadmus contract? I'm trying to get a sense for how in depth those WA's are, and how regularly new work assignments are initiated. During the creation of the WA is the time to identify whether STAG/EPM funding will be used. Meaning, that is the time to "pick & stick" with the source funding. I don't know how often that occurs, in order plan around the occasion.

Thanks,

Ben Bents
